TBEI
TRUCK BODIES & EQUIPMENT INTERNATIONAL, Inc.

Now Hiring for Sr. Business Analyst / SQL Administrator

Who we are

Truck Bodies & Equipment International (TBEI) is a Minnesota-based corporation that encompasses five leading manufacturers of dump bodies, landscape bodies, grain bodies, platforms, hoists, and truck and trailer equipment and accessories. We are a privately-owned corporation company which highlights:
- 1,000+ distributors and dealers, across North America
- 5 major brands
- Industry-leading technology, management team, and performance
- High quality products including military-spec dump bodies for the US Armed Forces

What we do

TBEI, Inc. manufactures and installs dump bodies and equipment. From fabricating raw steel to precise machining capabilities to welding and finish paint, TBEI provides customers with a "one-stop-shop for their complete dump truck needs. Dump bodies and other equipment are then installed and mounted onto truck chassis at one of our manufacturing facilities across the US or shipped to our distribution network.

TBEI –Mission Statement

We are a leading manufacturer of truck bodies and hoists in the USA. We enable the safe and efficient transportation of material in the construction, defense and agriculture markets. Each member of our team strives to exceed customer expectations with prompt delivery, exceptional quality, and unmatched response times. We do this through the development of market leading products with a commitment to continuous improvement of our employees, our production techniques and our product lines. "We don't make the truck, we make the truck work……We put the work in a Work Truck"

What we are like

Our company is smaller in size but big in ideas. We have 5 manufacturing facilities across the US in the states of North Dakota, Minnesota, Mississippi, Alabama, and Texas. In whole, TBEI has over 600 employees. Our vision is to grow the revenue of our already successful business. We work on creating an atmosphere where people feel good about coming to work and the work that they do. We are a hands-on management team supporting our people along the way.

Your Role

In this role, you will partner with IT and Finance leaders to evaluate options, recommend solutions, and make improvements to existing programs. You will collaborate with peers to accomplish projects and provide internal support, ultimately resulting in our customers' satisfaction.

Responsibilities & Qualifications

Responsibilities:

- ➢ SQL Database Administration with heavy focus on Financial reporting
- ➢ Support SyteLine MRP system
- ➢ Assist in managing interfaces between MRP system, in-house web pages and production applications
- ➢ Write SQL programming code to achieve defined objectives
- ➢ Partner with Finance department on budgeting process
- ➢ Manage very complex SQL reporting process
- ➢ Analyze performance of programs and correct deficiencies based on consultation with IT management.
- ➢ Work with IT and business users to evaluate options and recommend solutions in line with IT and/or business architecture
- ➢ Manage and lead in house programming team.
- ➢ Develop and debug programs.
- ➢ Maintain, refine, and modify existing programs and documentation
- ➢ Document projects, problems, and solutions.
- ➢ Provide end user documentation and support as needed
- ➢ Occasional Network and system administration.
- ➢ Backup IT support as needed
- ➢ Other duties as assigned.

Position Qualifications:

- ➢ This position will be heavily involved with complex financial and budget reporting using SQL and complex stored procedures.
- ➢ Experience with manufacturing nesting software a plus. (ProNest & TruNest)
- ➢ Ability to continuously question and evaluate systems/procedures for most efficient uses, better communication, and process improvements (including analyzing existing computer programming code)
- ➢ Good communication skills to identify and solve problems within the team environment
- ➢ Bachelor's degree or equivalent experience.
- ➢ In depth knowledge of SQL and experience in HTML/Internet applications, Java, and JavaScript (server and client side) and/or PostGreSQL. Programming preferences includes: ASP.NET, PERL, and Shell Scripting, C#, SQL Programming
- ➢ Experience in process areas mentioned above.
- ➢ Effective time management skills to consistently meet deadlines.
- ➢ Ability to organize information in a logical manner and devise practical solutions

- ➢ Must be a team player working with associates from other departments and facilities.
- ➢ Experience with integrated manufacturing and financial control systems.

What will make you Successful

Experience & Education will get you in the door, but your passion and ability to exceed internal and external customers' expectations, coupled with a highly motivated and positive attitude will help you be successful.

Benefits

We offer a full scale of benefits including health, dental, vision, STD, LTD and life insurance. After 6 months of employment, you will be eligible to join our 401(k) plan.

What should I do next?

If you believe you have what it takes to be a part of the TBEI team, submit your resume to Tina Albright: talbright@tbei.com. We are proud to be an EEO/AA Employer.
