

TRUCK BODIES & EQUIPMENT INTERNATIONAL, Inc.

## ***Now Hiring for Design Engineer Intern***

### **Who we are**

Truck Bodies & Equipment International (TBEI) is a Minnesota-based corporation that encompasses five leading manufacturers of dump bodies, landscape bodies, grain bodies, platforms, hoists, and truck and trailer equipment and accessories.

We are a privately-owned corporation company which highlights:

- 1,000+ distributors and dealers, across North America
- 5 major brands
- Industry-leading technology, management team, and performance
- High quality products including military-spec dump bodies for the US Armed Forces

### **What we do**

TBEI, Inc. manufactures and installs dump bodies and equipment. From fabricating raw steel to precise machining capabilities to welding and finish paint, TBEI provides customers with a “one-stop-shop for their complete dump truck needs. Dump bodies and other equipment are then installed and mounted onto truck chassis at one of our manufacturing facilities across the US or shipped to our distribution network.

### **TBEI –Mission Statement**

We are a leading manufacturer of truck bodies and hoists in the USA. We enable the safe and efficient transportation of material in the construction, defense and agriculture markets. Each member of our team strives to exceed customer expectations with prompt delivery, exceptional quality, and unmatched response times. We do this through the development of market leading products with a commitment to continuous improvement of our employees, our production techniques and our product lines. “We don’t make the truck, we make the truck work.....We put the work in a Work Truck”

### **What we are like**

Our company is smaller in size but big in ideas. We have 5 manufacturing facilities across the US in the states of North Dakota, Minnesota, Mississippi, Alabama, and Texas. In whole, TBEI has over 600 employees. Our vision is to grow the revenue of our already successful business. We work on creating an atmosphere where people feel good about coming to work and the work that they do. We are a hands-on management team supporting our people along the way.

## Your Role

In this role, you will create designs for customized dump bodies and participate in special project initiatives, utilizing SolidWorks and Pro-Engineering software applications. The Design & Engineering team's creation of quality designs drive success internally, ultimately resulting in our customers' satisfaction.

## Responsibilities & Qualifications

### Responsibilities:

- Producing accurate and clear engineering drawings and accurate bills of materials for new and existing products
- Creating custom designs and layouts in SolidWorks / Pro/Engineer as required to meet customer orders or other specifications
- Evaluating design changes, specifications, and drawing releases
- Preparing costing reports on current and new designs
- Being flexible to take on special projects as needed
- Preparing interim and completion project reports as required
- Conferring with workers in other departments such as marketing, manufacturing, and engineering, to provide technical information
- Other duties as assigned

### Position Qualifications:

- Bachelor's degree in Engineering in progress, plus some manufacturing experience preferred.
- Excellent verbal and written communication skills
- Must be able to maintain, be responsible for, and keep current on scheduled workload
- Ability to see situations from a variety of viewpoints (customer, employee, management, etc.)
- Ability to attend and participate in required company meetings.
- Ability to work with all levels of the organization
- Proficient in computer modeling programs such as SolidWorks
- Basic hydraulics knowledge preferred.
- Must be a team player with high integrity and strong work ethics to meet company goals.

## What will make you Successful

Experience & Education will get you in the door, but your passion and ability to exceed internal and external customers expectations by creating quality designs, coupled with a highly motivated and positive attitude will help you be successful.

## What should I do next?

If you believe you have what it takes to be a part of the TBEI team, submit your resume to [opportunities@tbei.com](mailto:opportunities@tbei.com). We are proud to be an EEO/AA Employer.
