

TRUCK BODIES & EQUIPMENT INTERNATIONAL, Inc.

Now Hiring for Manufacturing Engineer Intern

Who we are

Truck Bodies & Equipment International (TBEI) is a Minnesota-based corporation that encompasses five leading manufacturers of dump bodies, landscape bodies, grain bodies, platforms, hoists, and truck and trailer equipment and accessories.

We are a privately-owned corporation company which highlights:

- 1,000+ distributors and dealers, across North America
- 5 major brands
- Industry-leading technology, management team, and performance
- High quality products including military-spec dump bodies for the US Armed Forces

What we do

TBEI, Inc. manufactures and installs dump bodies and equipment. From fabricating raw steel to precise machining capabilities to welding and finish paint, TBEI provides customers with a “one-stop-shop for their complete dump truck needs. Dump bodies and other equipment are then installed and mounted onto truck chassis at one of our manufacturing facilities across the US or shipped to our distribution network.

TBEI –Mission Statement

We are a leading manufacturer of truck bodies and hoists in the USA. We enable the safe and efficient transportation of material in the construction, defense and agriculture markets. Each member of our team strives to exceed customer expectations with prompt delivery, exceptional quality, and unmatched response times. We do this through the development of market leading products with a commitment to continuous improvement of our employees, our production techniques and our product lines. “We don’t make the truck, we make the truck work.....We put the work in a Work Truck”

What we are like

Our company is smaller in size but big in ideas. We have 5 manufacturing facilities across the US in the states of North Dakota, Minnesota, Mississippi, Alabama, and Texas. In whole, TBEI has over 600 employees. Our vision is to grow the revenue of our already successful business. We work on creating an atmosphere where people feel good about coming to work and the work that they do. We are a hands-on management team supporting our people along the way.

Your Role

In this role, you are responsible for manufacturing process improvement, assisting with activities related to defining the production process to be used and to support process changes designed to improve safety, quality, and manufacturing efficiency throughout the manufacturing area, utilizing lean manufacturing techniques.

Responsibilities & Qualifications

- Assist with process improvement initiatives including process experimentation, design, optimization, control, and process definition & documentation to reduce waste and achieve continuous improvement and ultimately lead to quantum leap cost reductions.
- Assist with manufacturing initiatives to improve safety, reduce cycle times, improve productivity, create and find capacity, improve process reliability, and improve customer satisfaction with respect to quality, on time delivery, and yields. Develop, maintain, and deploy standard work for all processes. Work with Manufacturing Engineer and other leaders to help assure operator training and proficiency.
- Assist with and execute process engineering changes, and review process to include control over process parameters, process methods, tooling, etc.
- Perform other duties and assignments as assigned.

Position Qualifications:

- In progress of a Bachelor's degree in manufacturing engineering or related studies
- Advanced computer skills (Proficiency in MS Word, Excel & PowerPoint preferred)
- Must be self-motivated, have a high sense of urgency, be able to problem solve complex situations, be resourceful.
- Be a team player working with co-workers, other departments and/or other TBEI facilities. The focus is on meeting company goals and initiatives.
- Ability to walk/stand on concrete in a variety of positions including but not limited to kneeling, crouching, bending, twisting, and turning.

What will make you Successful

Experience & Education will get you in the door, but your passion and ability to exceed internal and external customers expectations by creating quality designs, coupled with a highly motivated and positive attitude will help you be successful.

What should I do next?

If you believe you have what it takes to be a part of the TBEI team, submit your resume to opportunities@tbei.com. We are proud to be an EEO/AA Employer.
